A-M GUTTER GUARD™

The Difference is in the DESIGN

EASY TO INSTALL IN NEW OR EXISTING GUTTERS

- Designed specifically for hidden hangers but works with all hangers
- Heavy gauge .018 - 100% aluminum will never rust
- Invisible from the ground
- Handles downpours
- Pest and weather (snow/ice) resistant
- Easy to install on new or existing gutters
- Does not install under shingles (voiding shingle warranty)
- Eliminates gutter clogging

*Talk to us about
dealer opportunities*

**We have GREAT
Wholesale Pricing**

How Do A-M GUTTER GUARDS Work?

Our unique bubbled filtration system allows rainwater to pass through our patent pending design while leaving debris to dry and blow away. Our maintenance-free design not only keeps debris from sticking; it promotes airflow from top and bottom allowing debris to dry and blow away in winds as low as 5 mph.

**CALL TODAY TO

CANTILEVER RACKING

The Cantilever Rack system is designed to manage loads of varying length and proportion without any interference. Product can be completely accessible from the front without any of the horizontal restrictions of traditional pallet rack. The entire length of the cantilever rack may be used for storage. For added flexibility, loads of differing lengths may be stored on the same cantilever rack and even at the same level.

PALLET RACKING

We manufacture roll-formed Pallet Rack and structural rack to fit any warehouse storage requirement. Selective Pallet Racks are the main component of every warehouse storage system.

**SEND US YOUR SIZES AND WE'LL
SEND YOU A QUOTE**

SCISSOR LIFTS, STACKER LIFTS, PALLET JACKS, LUMBER CARTS, PALLET RACK, CANTILEVER RACKS, ALUMINUM DOCK PLATES AND CASTERS

BEVANDA[®] **VERGE**[™]

The Bevanda[®] Verge[™] uses a unique hyperloc[™] system and combined cooling technology using our Coolboost[™] Insulated foam and Polar Walls[™] to keep your food fresh all day. To Learn more we are located in the tent section.

hyperloc SYSTEM

The hyperloc[™] system is a magnetic fastening system used to fasten the Polar Walls[™] to the inside of the Verge[™]. This system is also used in the lid to quickly open, and to provide a secure closure.

POLAR WALLS with TURA GEL

The Polar Walls[™] included with the Verge[™] are filled with our formulated Tura[™] Gel that delivers up to 12 hours of sustained cooling. Attach the walls and go, to be assured your contents will remain fresh all day long.

COOLBOOST Insulated Foam

Coolboost[™] is a high grade density insulated foam that's placed inside the walls of the Verge[™] to provide an optimal sustained cooling environment, keeping your contents fresh for hours on end.

SALT Microfinance Solutions

A program of Christian Aid Ministries

CAM's SALT Microfinance Solutions program reaches out to people in material poverty through savings groups, agricultural programs, microloans, and vocational schools.

SALT clients receive a steady diet of practical teaching from the Bible. They also learn basic business principles such as how to market goods, keep good records, and work with customers.

Our two main objectives:

- Help people discover ways to provide for their families
- Pattern and teach a Biblical way of life

Visit our booth in the tent to learn more about our work around the world.

Scan this code to learn more about SALT or to contribute to the work.

For an extremely durable, high-tech liquid coating, there's no better partner to finish your products than Hentzen Coatings.

Our coatings are custom engineered by chemists and technical specialists who pursue solutions to corrosion, weatherability, aesthetics and durability. Hentzen is a single-source provider of high-tech liquid and powder coatings. Family owned since 1923, we are big enough to do most anything, yet small enough to care about you.

No matter what you are working in or on, Hentzen can finish it. Hentzen.com

TOP 20 HORSES FITTED ON HEMP PELLETS AVERAGED \$45,475 PER HORSE.

Would you like to enhance the performance of your horse to compete with this class? If so, you may want to consider our CBD Hemp Pellets to help your horse to the next level. In 2020, 4 breeds combined with Percheron, Belgians, Standard Breds and Morgans top ten horses fitted on our Hemp Pellets averaged an amazing \$65,200 per horse. We would like to extend a special thank you to trainers and owners of this great group of horses.

True Stories! The WARDEN FORCE series consists of collections of short stories, the true adventures of some of the finest protectors of wildlife in the world. Award winning Terry Hodges was himself a California State Fish and Game Warden and supervisor/leader of game wardens for over 30 intense years. He writes with the authority possible only by those who have actually lived the life, who have actually packed a badge and a gun on behalf of wildlife and battled all manner of wildlife-destroying outlaws.

Warden Force Titles: \$14.95 each or get the entire set for \$94.99

Shipping rates: 1 book \$6.50, add \$1 per book after first book.

Aquamonics

DIGITAL WATER SYSTEM
WATER WITH A PURPOSE

Are you concerned about your water

**CHANGE YOUR WATER,
THE WAY IT IS MEANT TO BE.**

*Aquamonics Water System, improving your
water for animals, plants and humans.*

- Units that treat the water for your entire home or farm
- A whole house water system
- Agricultural water System
- Commercial water System

When the body is hydrated properly, it has the ability to eliminate toxins more thoroughly, it is able to perform to a higher level and functions in a more perfect way.

Aquamonics water assists the body to detoxify

Aquamonics water more thoroughly hydrates the body

Aquamonics water does not fix anything. Your body heals itself when allowed through the presence of the right supplies

We also have an Anti-Scaling unit.

— We are using the combination of the Aquamonics water treatment with the addition of electrons to the water to create a condition where the minerals that traditionally create the problems of hard water and scaling are changed. Their chemical structure is reduced by the addition of these electrons. This creates desirable new conditions without the use of salt or chemicals and without the wasted water associated with reverse osmosis or ion exchange systems. Although the minerals are NOT removed from the water, the problems associated with their presence disappear.

Testimonial

— I installed the Aquamonics water system with the intentions to energize the water for our deer herd. After 2½ weeks I am seeing more changes in my own body than in the deer pen. Not longer then I am drinking and bathing in this water, my hip problems left, my athletes foot got much better, I had a problem with heart burn, especially if I ate ice cream. Soon after I installed the system we had an ice cream party one evening and I put it to the test, I ate ice cream, and on the way home I felt my heart burn coming on, when I got home I drank a glass of water and it left me. I also have more energy, I am impressed. And for the deer pen the water troughs are a lot better to keep clean.

SAFE alternative to internet.

How do we overcome the challenges the internet creates for the community?

In today's world the internet is a tool businesses are almost forced to use. More and more things are going digital, creating complications for any other way of doing business.- Companies all around us are taking advantage of all the benefits it can offer, and those who don't fall behind.

How do we overcome the risks that are connected to opening up your business to the open internet? How to we overcome how the internet is changing our way of life?

ARK is an all-in-one solution from the community.

ARK was developed to overcome those problems. Business people and ministers from the community planned and drew up an all-in-one solution to overcome the concerns that come with the internet. With ARK you can safely grow your business while being completely secure.

ARK gives you the ability to utilize the benefits of the internet without any of the risks. Secure your way of life and safely grow your business.

✓ Each business connects individually to ARK.

✗ No direct connection to the open internet.

What does ARK do for my business?

With ARK you are able to access secure sites without connecting to the open internet, along with many other features necessary to help you succeed.

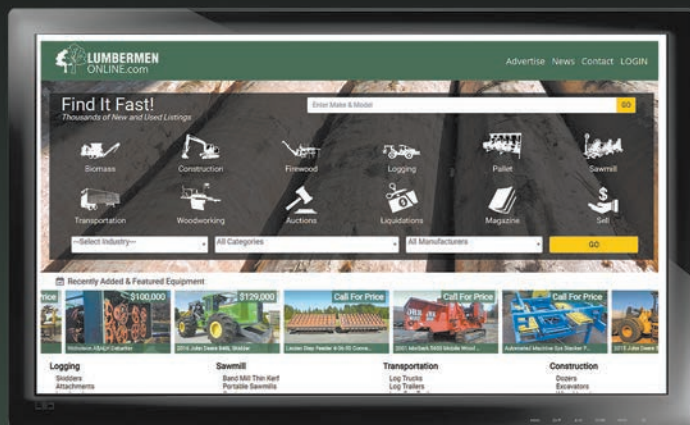

Compatibility

- Secure Email
- Quickbooks
- Microsoft Office
- Adobe Reader
- CAD software
- ARK Library of approved sites

DISCOVER THE ADVANTAGES

A product line that is simple and easy to choose from, yet so complete. Call for details.

A Total Hydraulics Hose Solution

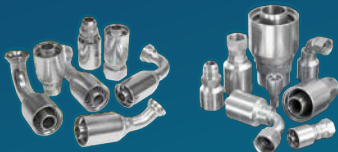

◦ **Ease of Assembly**

- You will learn to appreciate the consistency in Kurt products. Please allow us the opportunity to expose the ease of assembling a hose coupling onto a hose, on all Kurt products.

◦ **Bite in Wire System**

- A grip on the wire with proper crimp specs will dramatically increase your hose impulse capacity.

◦ **Kurt Tuff**

- 10X abrasion resistance
- Higher pressure ratings
- Greater flexibility
- Two wire braid

◦ **Kurt E-Z Bend 4SK Hydraulic Hose**

- Up to 40% higher pressure and greater flexibility than R12

Kurt W-Style Hose Couplings are compatible to all above hose series 1/2" & up.

LESS TRAVEL TIME MEANS MORE FUN AND RELAXATION!

Why Use Snow Guards on Your Roof?

Falling ice and snow is a liability for your home or business. But our snow guards prevent ice and snow from sliding off and causing damage. Protect your home, gutters, landscaping, lawn ornaments and especially your loved ones!

How do SS Snow Stoppers work?

SS Snow Stoppers act as a restraining system that holds ice and snow in place, allowing it to melt away without the fear of sliding off of your roof. When installed properly, a barrier is created that does not distract from the aesthetics of your roof, but is still very effective at stopping an avalanche.

SS G Classic Snow Stoppers are made of all stainless steel products and are powder-coated. Each Snow Stopper is outfitted with two, 7/16" set screw to ensure a solid bond to your roof.

RMG Premium Snow Stoppers are made out of 14-gauge stainless steel and are powder-coated.

**Wholesalers
Welcome!**

Bender's 2-CU Safety Flag

\$73⁷⁷

Each strobe is powered via optional sources of either:

- 4 'C' batteries
- A standard 12 volt battery
- "The Buggy Buddy"
- 4 'AA' batteries

NEW & IMPROVED!

Bender's 2-CU Safety Flag is designed for low profile slow moving vehicles such as pony carts, wagons, scooters and bicycles.

BENDER'S BUGGY SHOP • Robert R. Bender, Sr.
5524 Barryville Rd. • Nashville, MI 49073 | 517-852-0671

Stainless Wood Fired Water Heater

We think this stove is a very economical way to heat water. It will generally pay for itself fairly quick, as fuel cost is almost nothing compared to LP, kerosene, diesel fuel and electric.

- Three sizes to choose from
- Standard gauge water jacket.
- Fire once daily
- Needs no other storage tank
- Adjustable legs
- Heavy gauge fire box
- Limited 1 year warranty
- Rust-free water
- 3/4" water fittings

All models are about 22" in diameter and stand about 30" tall and then 3 different lengths to choose from.

MOWING MADE EASY - ROTARY DECK MOWER

READ THIS SO YOU TOO CAN HAVE THE MOWER OF YOUR DREAMS

Once upon a time there were two brothers sixteen months apart. They grew up brain storming and doing things together like boys do; making rafts, bows and arrows. Now they are older and own Suplee Hollow Machine.

They build the Grass Hippo Rotary Deck Mower. Their shop is set up for "one piece flow" production. Utilizing the "lean" concept they make daily improvements to become more efficient. Each mower can be built to clients needs. No need to wait until another batch of the model you need is built. In addition, they can customize each one without interfering with their workflow.

They are setting up a dealership with Ackermans. The plan is to have machines there by February 18. Step across the road from Air Works to see, touch and hear the mowers. Meet the manufacturer in person and check their calendar for available slots in manufacturing and rental schedule.

Mt. Hope
SHOWCASE

Don't Miss Us! **Mt. Hope Showcase - Feb. 18th, 19th & 20th**

Check out our huge display of machinery plus show specials!

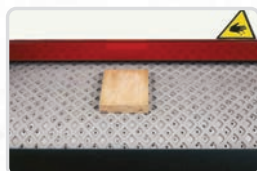

Your chance to see this powerful machine in action...

DMC SD 60 KRCS110

43" 3-Head Wide Belt Planer/Sander

- Extremely versatile and allows the calibrating of MDF & chipboard; calibrating and sanding of solid wood; pre-sanding and sanding of veneered panels and the finishing of painted surfaces
- "Mesar" sectional pad gives the best finish with any material
- Stores various work programs and retrieves common machine settings
- LED indicator informs operator where and when the panel has to be introduced into the machine, optimizing the standard wear of the sanding belt to ensure better quality finish and reduced machine costs
